

Euro Stick 101

(Waterproof Tile Adhesive)

Euro Stick 101 Water proof Tile Adhesive is a cement-based powder used to fix tiles, especially in wet or submerged conditions.

USES

- For fixing of interior and exterior ceramic, mosaic and sand stones in wet areas

SUPPORTS

- Concrete, sand, cement, screed, renders, etc.

ADVANTAGES

- Ready to use-just add water.
- Water proof-submerged conditions will not be effect adhesion
- Slip proof
- High adhesive bond strength
- Easy to use and economical
- Exceeds British standard requirements

INTRODUCTION FOR USE

The surface should be clean and free from oil or grease. The tile should also be clean, dry and dust free Euro Stick 101 Water proof Tile Adhesive is mixed in a proportion 5-6 liters of pure water for 20kg bag. Mix to a uniform lump free consistency. Allow standing for 5 minutes so that the resins are completely dissolved. Moisten the support if necessary never the tiles. A forced action mixer should do mixing. Hand mixing is recommended for small quantities only: the powder/water ratio must be maintained.

APPLICATION

Apply Euro Stick 101 waterproof Tile Adhesive to a uniform thickness of 3-6 mm on the support to cover the slots at the back of the tiles on a working area of no more than 1m² For horizontal application solid bed fixing is recommended as well as for heavy-duty vertical application. For all other vertical application use a toothed spatula to comb horizontally to remove axes. The trowel should have 6mm notches and 25mm center to center. Then apply the tile, press it, smooth out carefully so that the mortar is spread evenly. Then bonding is perfect, the tile does not slide. The joints can be filled with UB-Tech tile grout.

POINTS TO BE NOTED

- The open time of Euro Stick 101 Water proof Tile Adhesive at 30°C is approximately 30 minutes. Care should be taken in preparing the mortar properly only the surface, which can be tiled with in this time.
- Euro Stick 101 Waterproof Tile Adhesive should not be used on painted or metal surfaces.

COVERAGE

Approximately 2 kg/m² depending on the support.

CLEANING

Clean tools with water after use.

SHELF LIFE

Euro Stick 101 Waterproof Tile Adhesive can be kept for 12 months in Un opened packs. Store in dry condition and protect against wind and rain.

PACKAGING

Available in 20kg white and 25kg gray packs

CHARACTERISTICS

Aspect:	Powder
Color:	White or gray
Density:	Approximately 1.8
Flash point:	Not applicable
